**Profile:**

I am responsible, committed, and dedicated, known for being proactive, punctual, and fair. I have basic and constantly evolving knowledge in technologies such as Java, C#, Angular, HTML5, CSS3, and Bootstrap. I am always seeking to learn and improve my skills to become an increasingly better professional.

**Career Objective:**

I am seeking a position as a software developer or software engineer where I can apply my knowledge in languages such as Java, C#, SQL, and frameworks like Spring Boot, while continuing to develop my skills in new technologies. My goal is to make a significant contribution to the company's projects, with a focus on code quality, efficiency, and innovation. I am committed to continuous learning and professional growth, aiming to add value to the team and organization, and to grow as a professional in the software development field.

**Professional History:**

**Company:** WEDER TECNOLOGIA

November 2022 – Present · On-site, Rio de Janeiro

**Junior Computer Support Technician**

Playing a key role in ensuring the IT infrastructure at Colégio Companhia de Maria, located in Grajaú, Rio de Janeiro - RJ. My responsibilities include providing technical support to teachers and other staff members, ensuring the efficient operation of their equipment and systems.

My activities involve maintaining and configuring computers, supporting sound equipment for events, and configuring networks, cameras, telephony systems, printers, cabling, and other infrastructure equipment.

By implementing information and telecommunication technologies, I contribute to improving the teaching and learning processes at the institution.
